THE NEWS INSURANCE—We were shown the letter yesterday from Lafayette, California, in which states that six negroes were to be hung on the day the letter was written. The *New York Gazette* of Wednesday has the following:

A correspondent of the *Gazette* informs us that four male negroes are to be hanged on that day, on account of their connection with the *Times* and *Enterprise* in the case of the late awarding examination. It is to be hoped that the negroes will be done to any, unless their guilt is clear.

Q—We have the details of the late foreign news, but there is nothing of special interest except the following in regard to the money market:

The *London* press mentioned recently in relation, Mr. Bagehot's statement that the Bank of England had raised its rate from 3 to 4 per cent. This has been followed by the *New York Herald*, which says that the London authorities have raised the rate of discount to 4 per cent. The *Bank of France* has also raised its rate of discount to 4 per cent. It is expected that the Bank of England would soon do the same.
